

RANA JANVI BHAVINKUMAR

Bachelor of Physiotherapy (BPT) Graduate

Surat, Gujarat | 9662698781 | janvibrana1802@gmail.com

PROFESSIONAL SUMMARY

Dedicated and compassionate physiotherapy graduate with hands-on clinical exposure across orthopedic, neurological, and critical care settings gained through a comprehensive rotatory internship. Skilled in patient assessment, exercise prescription, and electrotherapy modalities, with a strong commitment to individualized, patient-centered care. Seeking to begin a clinical career where rigorous training and a compassionate approach can support optimal patient recovery at a progressive healthcare facility.

EDUCATION

Bachelor of Physiotherapy (BPT)

Government Physiotherapy College (Civil), Surat

Affiliated to Veer Narmad South Gujarat University

Year of Graduation: 2026

CLINICAL EXPERIENCE / COMPULSORY ROTATORY INTERNSHIP

Civil Hospital, Surat *Rotatory Internship • 6 Months*

Departments Covered: Orthopedics, Neurology, General Medicine, Surgery, Pediatrics, ICU & Cardiopulmonary

- Rotated across orthopedic, neurological, general medicine, and surgical wards, gaining hands-on exposure to a diverse patient caseload.
- Assessed and diagnosed musculoskeletal and neurological conditions under the supervision of senior physiotherapists.
- Administered electrotherapy modalities, including IFT, TENS, ultrasound, and wax therapy, for pain relief and tissue healing.
- Designed and implemented post-operative rehabilitation protocols for orthopedic and surgical patients.
- Performed chest physiotherapy and early mobilization techniques for critically ill patients in the ICU.
- Maintained accurate patient records and coordinated with multidisciplinary teams to track treatment progress.

Premvati Narayandas Arora Charitable Trust Clinic, Surat *Observation & Learning • 6 Months*

Departments Covered: Orthopedics, Neurology, Cardiopulmonary, Pediatrics

- Observed clinical assessment, goal-setting, and treatment planning across orthopedic, neurological, and pediatric cases.
- Learned cardiopulmonary rehabilitation techniques and treatment approaches under senior clinician guidance.
- Learned age-appropriate patient handling, positioning, and therapeutic exercise techniques.
- Observed patient education methods and the design of home exercise programs.
- Developed a foundational understanding of clinic workflow and interdisciplinary coordination.

RESEARCH & ACADEMIC PROJECTS

Graded Motor Imagery (GMI) Technique in Neuro-Rehabilitation

Conducted an academic research project studying the application of the Graded Motor Imagery technique for pain modulation and motor recovery in neurological rehabilitation, incorporating literature review and case-based analysis to evaluate its clinical relevance.

CORE COMPETENCIES & SKILLS

Clinical Skills: Exercise Prescription | Post-Operative Rehabilitation | Electrotherapy

Soft Skills: Patient Education | Empathy | Effective Communication | Time Management | Multidisciplinary Teamwork

Languages: English | Hindi | Gujarati
